# Aymen Braikia

**Full-stack web developer (MERN)**

## Links/Contact

Portfolio    Linkedin    Github    Twitter    aymenbraikia1@gmail.com    +213 559078448

## Skills

**Front End:**    React    Next JS    TypeScript    HTML5    CSS3    JavaScript (ES6)+

**Back End:**    Node JS    Express JS    MongoDB    REST APIs

**Tools:**    Git    JWT    Github    Vercel    Linux    Figma

## Profile

Self-taught full-stack web developer specializing in the MERN stack. Passionate about building clean, fast, and user-friendly web applications. Experienced in delivering real-world projects, collaborating on open-source, and constantly learning modern technologies.

## Projects

### Neuro

A full-stack AI-powered chatbot web application inspired by ChatGPT. Neuro simulates natural human conversation using a modern interface and integrates OpenAI's API to provide intelligent, context-aware responses. Built with a scalable MERN architecture, it includes secure backend handling, message history, and real-time interaction.

Tech Stack: Next, React, MongoDB, TypeScript, Express
